Getting Started

1. How to install WordPress

To install this theme you must have a working version of WordPress already installed. For information regarding the installation of the WordPress platform, please see the WordPress Codex http://codex.wordpress.org/Installing_WordPress

2. How to install & activate WP e-commerce Plugin

Important Note

Installed WP e-Commerce plugin must be 3.8 or higher version.

How to Install & Activate WP e-Commerce Plugin via WordPress Dashboard

- a. Login to your WordPress Dashboard.
- b. Go to **Plugin > Add New**. You'll see a search box.
- c. In the search box choose **Term** as search option. Type in **e-commerce** in the blank field. Click **Search Plugins**. You'll see **WP e-commerce** plugin.
- d. Click **Install** (under the **Actions** tab)

How to Install & Activate WP e-Commerce Plugin Manually

- a. Download the latest version of WP-e-Commerce plugin from [Getshopped.org](http://www.Getshopped.org).
- b. Decompress the downloaded ZIP file. You'll have WP-e-Commerce plugin in your computer.
- c. Open preferred **FTP/SFTP** program. Login to its server.
- d. Upload the entire wp-e-commerce plugin to the **wp-content/plugins** directory on your server. You'll have a path to the directory: **WordPress/wp-content/plugins/wp-e-commerce**.
- e. Login to your WordPress Dashboard.
- f. Go to **Plugins**. You'll see inactive plugin called **WP Shopping Cart**.
- g. Click **Activate**. You'll see **Products** appearing on Dashboard.

3. How to install Tokoonline themes

When you are ready to install a theme, you must first upload the theme files and then activate the theme itself. The theme files can be uploaded in two ways:

- Unzip theme package you'll find 2 folders: **Docs Folder** and **Themes Folder**. Inside **Docs folder** you'll find 2 files: Read Me and Log File. Read Me is the guide you're reading at this moment, while Log File tells you which version of the theme you currently have.
- **FTP Upload:** Using your FTP program, upload the non-zipped theme folder into the `/wp-content/themes/` folder on your server.
- **WordPress Upload:** Navigate to `Appearance > Add New Themes > Upload`. Go to browse, and select the zipped theme folder. Hit "Install Now" and the theme will be uploaded and installed.

Once the theme is uploaded, you need to activate it. Go to `Appearance > Themes` and activate your chosen theme.

Be sure WP e-commerce plugin has been activated. After the themes was activated, you should go to `store > presentation` . Find advanced themes setting box:

- For the first time installing these themes in wordpress e-commerce, you just have to click the **Move Template Files**
- If you've previously installed other themes, you should click **Flush Cache** and then click **Move Template Files**.

Themes is ready to used.

Link BuddyPress

So you've activated BuddyPress huh? Great! This theme is compatible without any additional configuration. However, you may want to know about some of the additional pages that you can link to in your navigation and elsewhere...

Activity Page: <http://tokokoo.com/getshopped/activity>

Members Page: <http://tokokoo.com/getshopped/members>

Groups Page: <http://tokokoo.com/getshopped/groups>

Forums Page: <http://tokokoo.com/getshopped/forums> (Only if you have forums setup)

Register Page: <http://tokokoo.com/getshopped/register> (Only if you allow registrations. Logged in users will be redirected to the homepage.)

NOTE: These pages will only work if your permalinks are set to anything other than default. This is a requirement for BuddyPress to work correctly.
